Session

- [Thu, May 9, 2:45 - 3:00 PM](#)
[AB02-06 - Calcium-Driven Low-Amplitude Action Potential Voltage Alternans Precedes Arrhythmogenic Spatially Discordant Alternans in Human Heart Failure](#)
- Jason D. Bayer, MS, Sanjiv M. Narayan, MD, PHD, FHRS, Gautam G. Lalani, MD and Natalia A. Trayanova, PhD, FHRS. Johns Hopkins University, Baltimore, MD, University of California San Diego, La Jolla, CA
- [Abstract Session](#)
[AB02. Human Arrhythmia: Basic Mechanisms](#)
[Thu, May 9, 1:30 - 3:00 PM](#)
- [PO02-90 - The Propensity to Alternans can be Quantified in Cardiac Cells Using Stochastic Pacing](#)
- Yann Prudat, PhD, Roshni V. Madhvani, MSc, Nils P. Borgstrom, MSc, Enno de Lange, PhD, Riccardo Olcese, PhD and Jan P. Kucera, MD. University of Bern, Bern, Switzerland, University of California Los Angeles, Los Angeles, CA, Maastricht University, Maastricht, Netherlands
- [Poster](#)
[PO02. Poster Session II](#)
[Thu, May 9, 9:30 AM - 12:00 PM](#)
- [PO02-96 - Spectral Analysis of Atrial Action Potential Alternans: A Sensitive Clinical Index of Individual Propensity to Atrial Fibrillation](#)
- Gautam G. Lalani, MD, Amir A. Schricker, MD, David E. Krummen, MD and Sanjiv M. Narayan, MD, PHD, FHRS. University of California, San Diego, San Diego, CA
- [Poster](#)
[PO02. Poster Session II](#)
[Thu, May 9, 9:30 AM - 12:00 PM](#)
- [PO02-165 - Risk Stratification of Ventricular Tachycardia or Ventricular Fibrillation in Postinfarction Patients with EF<35%: Results from a Multicenter ICD Risk Stratification Study](#)
- Wojciech Zareba, MD, PhD, James Daubert, MD, Otto Costantini, MD, Aysha Arshad, MD, Jean Philippe Couderc, PhD, Andrew E. Epstein, MD, Scott McNitt, MS, Arthur J. Moss, MD, Eric Rashba, MD, Spencer
- [Poster](#)
[PO02. Poster Session II](#)
[Thu, May 9, 9:30 AM - 12:00 PM](#)

Rosero, MD, Lawrence
S. Rosenthal, MD, PhD,
Stephen R. Shorofsky,
MD, PhD, Kenneth Stein,
MD, Gioia Turitto, MD,
PhD, Stephen Winters,
MD, M2Risk

Investigators. University
of Rochester, Cardiology
Unit, Rochester, NY,
Duke University Medical
Center, Durham, NC,
MetroHealth System,
Cleveland, OH, Valley
Health System,
Ridgewood, NJ,
University of
Pennsylvania, Cardiology
Unit, Philadelphia, PA,
SUNY-Stony Brook
Health Sciences Center,

Center, Worcester, MA,
University of Maryland
Medical Center,
Baltimore, MD, Boston
Scientific, Arden Hills,
MN, New York
Methodist Hospital,
Brooklyn, NY,
Electrophysiology
Associates, Morristown,
NJ

- [PO03-100 - In Vivo Mapping Of Repolarization Alternans In Man: Does Serca 2A or Fibrosis Play A Role?](#)

Pier D. Lambiase, PhD,
FRCP, Michele Orini,
PhD, J. Yanni Gerges,
PhD, Ben Hanson, PhD,
Halina Dobrzynski, PhD,
Xiao Jie, PhD, Mark
Boyett, PhD, Martin
Hayward, MD, FRCS
and Peter Taggart, PhD,
FRCP. Heart Hospital,
London, United
Kingdom, University
College London, London,
United Kingdom,
University of
Manchester, Manchester,

[Poster](#)
[PO03. Poster Session III](#)
[Thu, May 9, 2:00 - 5:00](#)
[PM](#)

United Kingdom

- [PO03-166 - T-wave Alternans is Useful for Predicting Adverse Outcomes of Hospitalized Patients with Heart Failure](#)

Shinya Yamada, MD,
Hitoshi Suzuki, MD,
Takashi Kaneshiro, MD,
Yoshiyuki Kamiyama,
MD, Shu-ichi Saitoh,
MD and Yasuchika
Takeishi, MD.
Department of
Cardiology and
Hematology Fukushima
Medical University,
Fukushima, Japan
